

Evoluent Standard Right

An ergonomic vertical mouse

 BAKKER ELKHUIZEN

Work Smart - Feel Good

More comfort and health benefits with a vertical mouse.

Prolonged mouse use can lead to physical discomfort, which is why using an ergonomic mouse is really important.

The Evoluent Standard Right is a vertical mouse that is held in a handshake posture. This posture causes less lateral wrist-bending and forearm rotation.

The handshake position of vertical mice keeps the wrist from bending as much to the side while the forearm also turns inward to a lesser degree (Schmid, et al., 2015). This means that muscle activity in the forearm is less than it would be when using a conventional mouse (Quemelo & Vieira, 2013).
