

FlexDesk 640

Flexible document holder with extendable worktop

Computer users often use documents when working at the computer.

Unfortunately, the body is often subjected to excessive strain because these documents are spread all over the desk. With the flexible document holder FlexDesk 640 you can easily alternate between writing and computer work.

To prevent neck rotation, documents should be placed between the keyboard and display screen. A sloping work surface reduces flexion of the neck and thus increases work comfort.

An 'in-line' document holder provides a functional work surface and short viewing distances between the document, screen and keyboard. The result is increased productivity.

Work in-line for optimal comfort

An ergonomic workspace promotes the comfort and productivity of computer professionals. With some small adjustments you can easily create the ideal workspace. Computer users often use documents, memos and reports when working at the computer. Unfortunately, the body is often subjected to excessive strain because these documents are spread all over the desk. The FlexDesk 640N is a combination document holder and stand. With the FlexDesk 640N you can perform different tasks in your workspace in an efficient and ergonomically responsible way.

Advantages of the FlexDesk 640 Document Holder

Multifunctional

The FlexDesk 640 is a 2-in-1 stand and document holder. The documents always lie in one single field of vision and you don't have to turn when you need to make notes, you just have to pull the worktop towards you in order to write.

Quality

This product also has the look of a high-quality BakkerElkhuizen product: a matte worktop, smooth-gliding rails, a pen tray and a solid feel because it is made of thick acrylate (5mm).

Simple

It is easy to adjust the height, which gives you a good connection with the screen. The height range is 110-180 mm.

Efficient

Because the viewing distances are smaller between document, screen and keyboard you will work more efficiently and comfortably.

Practical

Not only can you work in alignment and make notes, you never have to lose your pens. Thanks to the practical pen tray everything is always within reach. There is also space to store your full-size keyboard.

Comfortable

You can easily alternate between writing and computer work.

Knowledge Center

Computer users often work with documents, notes and reports when carrying out their computer tasks.

But having these papers spread out over the user's desk often places additional strain on the user's body. The solution? FlexDesk, the multifunctional ...
