

# Q-doc 500

Indispensable for fixed workspaces

 BAKKER ELKHUIZEN

*Work Smart - Feel Good*

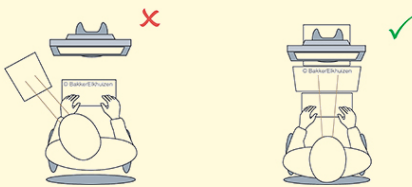

## Prevent unnatural head and neck motions.

The Q-doc 500 adjustable document holder is placed between the screen and the keyboard, preventing unnatural head and neck motions.

Working in alignment with the keyboard, document holder and screen is easier on your body.

To prevent neck rotation, documents have to be placed between the keyboard and display screen. A sloping work surface reduces flexion of the neck and thus increases work comfort.

**Ergonomic:** reduces strain on the neck and eyes, and prevents neck problems and headaches.

**Efficient:** short viewing distances between document, screen and keyboard.

**Suitable:** this document holder fits any thick book and heavy binder.

**Fixed:** a fixed viewing angle of 30 degrees.

**Clean desk:** you can fit a full-size keyboard under the Q-doc 500.

**Material:** clear acrylic.
