## **MORE INFORMATION ePump**

**Cordless and portable** - Due the compact design, the ePump is absolutely travel friendly! This cordless device is easy to carry around in your backpack or back pocket

**Inflate & deflate** - Make traveling with an air pump easier! The ePump quickly inflates any inflatable and can vacuum deflate them when it's time to head home.

**Rechargeable** - You no longer need to worry about finding the closest electrical outlet. We created the ePump to be rechargeable through a Micro-USB that's included with your purchase.

**Portable** - Take this compact air pump anywhere! The ePump is smaller than your smartphone and comes with a protective case so you don't lose any accessories along the way.

**Long battery life** - With a powerful battery that provides up to 1.5 hours of constant airflow, you can use the Coolado ePump on up to 45 airbeds with just one charge.

**Multipurpose use** - The ePump is versatile. Perfect as a portable pool toy inflator or to quick-start your BBQ, the ePump will be your new outdoor must-have accessory!
