3.Hazards Identification

The Most Important Hazards Adverse Human Health Effects

There are no significant hazards expected with intended use. Environmental Effects

There are no significant hazards expected with intended use. Physical and Chemical Hazards

There are no significant hazards expected with intended use. Specific Hazards Dust explosion (like most finely grained organic powders) Main Symptoms Acute Inhalation Toxicity

Exposure to excessive amount of dust may cause physical irritation to respiratory tract. Acute Oral Toxicity

Low acute toxicity in animal experiment. Acute Eye Irritation

May cause slight transient irritation. Acute Skin Irritation

May be non-irritant.

Sensitization

From test no apparent significant hazards are expected . (Only few cases reported on incidental allergy-related conjunctivitis or dermatitis.)

Chronic Effect

Slight pulmonary fibrosis has been reported in rats upon chronic inhalation exposure to a toner at 4mg/m3 every day for 2 years. No pulmonary change was found at 1mg/m3. These findings show that exposure to excessive amounts of powder may cause damage to lungs. However, normal use and handling of this product as intended, does not result in inhalation of excessive amounts of powder.

Carcinogenicity

Carbon black contained in this product is classified to Group 2B of IARC as the result of inhalation test in use of rat.

But oral/skin test does not show carcinogenicity.

The toner containing carbon black did not show carcinogenicity in chronic inhalation exposure test in use of rat.

The Classification of The Chemical Product

This preparation is not classified as dangerous according to Directive 1999/45/EC.

4.First-Aid Measures

Inhalation

Remove from exposure into fresh air and rinse mouth with water. Seek medical advice. Skin Contact

Wash thoroughly with soapy water.

Eye Contact

Flush with a large amount of water until particles are removed. Seek medical advice. Ingestion

Drink several glasses of water to dilute ingested toner. Seek medical advice. Notes to a physician

Not applicable

5.Fire-Fighting Measures Extinguishing Media

CO2,dry chemicals,foam or water.

Extinguishing Media to Avoid

Not applicable. Specific Hazards

Can form explosive dust-air mixtures when finely dispersed in air. Specific Method

No special fire protecting method is required. Sprinkling or fire extinguishers can be used. Protection of Fire-fighters

Wear gloves, glasses, a mask if necessary.

6.Accidental Release Measures

Personal Precautions

Do not breathe in dust.

Environment Precautions

Do not flush into sewers or watercourses. Methods for Cleaning Up

Fine powder may form explosive dust-air mixture.Confirm there is no source of fire and if there is a source,remove it.Sweep up spilled powder slowly and clean reminder with wet cloth.If a vacuum cleaner is used,a dust explosion-proof type must be chosen.

7.Handling and Storage

Handling Technical Measures/Precautions

Not applicable

Safe Handling Advice

Do not handle in areas where there is wind or draught, this may cause dust to get into eyes. Avoid breathing in dust.

Storage Technical Measures

Not applicable Storage Conditions

Keep out of reach of children. Store in dry, well-ventilated area, to maintain quality the temperature should not exceed 35degrees centigrade for a long time. Avoid direct sunlight. Packaging Material

Not applicable Specific Use(s) Image formation in printing machines or copiers.

8.Exposure Controls/Personal Protection

Technical Measures

Use adequate ventilation. None required with intended use.
